ECONOMY, Convenience and Luxury
combined, with one of
WINCHELL'S Water Coolers.—This
son is again at hand when the use of ice is
unpleasant to the comfort and health of every fami-
ly.
The undersigned has for several years past been en-
gaged in the manufacture of the above named article, and
has devoted much time and labor in perfecting them.
Knowing their great utility, economy and convenience,
must bring them into very general use. They have be-
come indispensable to every house-keeper. The fact
has been demonstrated beyond question that they will
preserve food longer than any of the designs which have
been brought out to that purpose. The convenience of
always having ICE WATER ready for drinking, is
fully appreciated by those who have used this article.
The undersigned has larger and better facilities for
manufacturing Water Coolers, than any establishment
in the country, and is now prepared to supply them in
any quantity.

To merchants and others having to sell, a liberal dis-
count is made. They can be packed and shipped to any
part of the country with perfect safety.

and largely increased facilities for manufacturing, is
now prepared to supply dealers, on liberal terms.

Tinners, Stove dealers and others will find it greatly
to their interest to purchase their stock direct from
the manufacturer.
I have also recently made such arrangements with
the manufacturers of TIN, LEAD, AND ZINC, and TOOLS,
as to be constantly supplied. Among which will be
found some newly invented labor saving machines,
which can be seen in operation. All of which will be
sold at manufacturers prices.

Temperance and Know-Nothingism.

The astute editor of the New Era, a temperance paper published in Lexington, in a very windy article in his paper of the 18th, advocates the 'Buntline Church Burning Association,' or the Know-Nothingism. We have always thought that this society was instituted for the purpose of uniting the scattered portions of the whig party, but we confess that we were surprised, when we gleaned from the article in the New Era, that the only hope for the temperance party to secure the general adoption of the Maine Law, was to unite with a body whose only principles, so far as they have been avowed, are proscription, and hostility to foreigners of every grade. The editor professes whiggery, we believe, as his political creed, and this will account probably for his sympathies with, and advocacy of this new fangledism. It is true, that in the article referred to, he is 'down on' both of the political parties of the day, but his defence of this new association shows his affiliation with the whig party, since we presume there are few but who will concede that the Native American principles of '36 and '40, which were espoused by the whig party, and especially by Gen. Scott, constitute the basis of the Know-Nothing party.

If the temperance party throughout the union expect to secure the general adoption of their platform by denouncing and proscribing foreigners, they will find themselves mistaken. The reformation they are endeavoring to effect is a moral one in its nature, and we have yet to hear of any such reformation ever being carried into successful operation by means of political proscription. Temperance is a divine attribute, and religious associations, aided by speakers and the temperance press, must effect the spread of the total abstinence principle; and in calling in the help of dangerous secret organizations, they are committing two principles entirely antagonistic.

The editor remarks that Know-Nothingism would be thrice blessed if it succeeds in dismembering the old political abominations, called whiggery and democracy. As we remarked before, the editor's denunciations of the whig party go for nothing, since he advocates Know-Nothingism, and it is conceded that the whig party stood as sponsors at the birth of the association. But why would it be a blessed thing for the two political parties of the present day to be disbanded, and Know-Nothingism substituted in its stead? What has democracy done for our common country, and what has Native Americanism done? We can point with honest pride and exultation to the rapid growth of our confederacy, its exalted position among the nations of the earth, its immense and still developing resources, and the happiness and freedom of our people, as the fruits of democratic policy; while on the other hand, we turn with sadness and shame to the bloody riots and murders, the demolished churches, and desecrated sanctuaries as the offspring of 'Native Americanism.' Look first on that picture, then on this, and decide which is not honorable to our National reputation. Again, the editor says the 'Know Nothing party is strictly National-American in the old fashioned sense of the word. If it be 'National or American' to proscribe the descendants of Lafayette, Kosciuszko, Pulaski, Baron de Kalb, and other illustrious foreigners, who by spending their means and their blood helped our patriot sires to wrest this fair land from British tyranny, then the Know Nothing party are 'National and American,'—but God preserve our Union from the blighting, withering curse of such Americanism or Nationality. 'The new organization must be judged of by its works,' says the editor again:—'What has it done?' It has already in various portions of the country thrown numbers of honest, hard working foreigners out of employment, forcing them either to become a burden upon the public or to starve; females are not exempt from the general hostility, for a very worthy young Irish lady in New York, lately, was discharged from the situation she held as school-teacher for no other reason than being a foreigner. These are some of its works, and to gratify the editor as to the manner in which we derived our information, we will inform him that we have seen the published letters of dismissal in the cases referred to.

But we have written enough about this matter for the present, and we will conclude by assuring the editor of the New Era that he is mistaken if he supposes that proscription of foreigners will help on the Temperance cause.

Frankfort, from present indications, is a "doomed city." It was in our fact that we made mention of the fact that provisions, were extravagantly high, and

now we are suffering for ice wherewith to counteract the effect of the calorific, and a supply of water is denied us every night early. The last state of affairs is horrible to any unfortunate wight who may have imbibed an extra quantity of the "fluid." The "sobering up" is a very difficult process, and if a person cannot secure a tumbler of water to cool his parched "coppers," he suffers agony as intense as that which tortured Tantalus. "Sparkling and bright in its liquid light" "only revives unpleasant reminiscences of the "old time gone," when the hydrants at all times, gave us their liquid treasures—but it is no use grieving, we suppose.

The following from one of our exchanges gives some information which may be of interest to the public. It is generally supposed that these free banks are safe; inasmuch as their circulation is secured by stocks deposited with the Auditor of State; the notes all being signed by him, so as to make sure of preventing an over issue; and, we grant that this is some improvement on the usual mode of banking. It is quite impossible, however, to avoid the evils of a bank of issue.—The whole system is wrong, and all ex-

ponents to substitute "promises to pay" for actual payments will fail to make a uniformly sound currency.

Below we have the banks of Tennessee classified:

TENNESSEE BANKS.—As banks have been multiplying very fast recently, and as many persons confound the free and stock banks together, we have concluded to publish a list of each. It will be remembered that the notes of the free banks are secured by a deposit with the Comptroller of the State of Tennessee bonds, and Nashville and Chattanooga Railroad bonds, which are endorsed by the State, and consequently quite as good as the State bonds proper. The free banks cannot issue a dollar without depositing dollar for dollar with the Comptroller in bonds. This fund is a sacred one, and cannot be used for any other purpose than the redemption of the notes issued by the respective banks.

NEW POST OFFICE.—A new Post Office has been established at Millville, Woodford county, Ky. Samuel Miles has been appointed the Post Master.

Our friends Daxon & Graham have just shown us the handiest and best churning machine we have ever seen. Besides being simple in its construction, it has a thermometer and water reservoir attached, with printed directions to preserve the paper temperature. It is found, we doubt not, to supercede all other churns in use, for they are cheap. Call and see them.

We see by the Lexington Observer and Reporter of yesterday morning, that our esteemed friend Jas. L. ALLEN Esq., has returned from his European trip.—During his absence we missed him very much indeed, and in common with his numerous friends we are glad he is among them once more. Mr. A. is a Democrat of the right stamp, and a gentleman of the highest order.

Our "devil" is of the opinion, arrived at after mature reflection, and in view of the scarcity of water, and the high price of provisions, that ginger cakes and water melons would be the diet that our citizens could adopt. We are of the opinion that it would be wholesome, but the way they charge for melons effectually negatives the idea of cheapness, and precludes editors from indulging.

The literary gem of our friend LeCompre is laid over until next issue for want of space in to day's paper. We disliked very much to postpone it, and would not have done so, had we known the circumstance sooner. It will most positively appear in our next.

OFFICERS OF THE MASONIC GRAND LODGE OF KY.—Below, we give the names of the officers elected at the session of the Grand Lodge, now being holden in Lexington. We understand that there is a larger attendance of delegates, this time, than there has been for some years.

KNOW-NOTHINGISM vs. GENEROSITY.—We always knew of Maj. Hanley's kindness, and it needs not our friend CAPT. COGAR's confirmation, (though he too is one of the most voracious, and warm hearted Democrats in the world) to induce us to give perfect credence to the story. We will 'post' the narrative up in our sanetum as a standing rebutter to know-nothingism.

ONE OF THE D—D FOREIGNERS.—We have heard a truly story on one of our adopted citizens, which we intend to tell. If only to help on the glorious cause of Know-Nothingism. The truth of the story is vouched for by our esteemed friend, Capt. T. T. Cogar, of Cogar's Landing, and all who know the Captain (and who is it that don't know him?) will give it implicit credence; for although our friend bears the reputation of being a 'good talker,' he believes his veracity is alike unquestioned and unquestionable.

The infamous old foreigner alluded to, is no less a man than Maj. Hanley—we forget his first name, but our impression is that he is known as Maj. John H. Hanley, of Jessamine county. In consequence of the great drought which is still prevailing, the price of corn and wheat has gone up, as our readers are aware, to an unprecedented rate, and the poorer classes are now actually suffering for the necessities of life. Many of our successful farmers, who have large supplies of corn on hand, are selling at exorbitant rates; and the small sum of money which lately procured corn-meal enough to sustain a poor family for a week, will now scarcely pur-

chase a sufficiency to keep soul and body together for a couple of days.

In view of the distressing scarcity of bread-stuff, common humanity would dictate to those who have large supplies on hand, that they ought to put it in market at once, even if they sell it at somewhat exorbitant rates. But unlike most of his neighbors, Maj. Hanley has positively refused to sell at any price—the rascally old foreigner! He has done this, however, and we commend his course to the consideration of bigoted Know-Nothingism. He has thrown open his well-filled granary to the need, and invited them to partake freely, 'without money and without price.' It is true that he is a prosperous farmer, and can afford to be generous; but such a man deserves to prosper—God bless the noble heart that beats in his bosom, and grant him length of days and continued prosperity!

Maj. Hanley is a type of that class of men whom the Know-Nothingism propose to disfranchise. He is an Irishman, a Catholic, and a Democrat withal, which latter is an unpardonable sin as either of the others in the eyes of Know-Nothingism. The time is not far distant when decent men will blush to confess that they were ever connected with such an organization. Their very name is a slander upon the American people. They are not the American party, but are anti-American in all their tendencies, and wholly unworthy the name of republicans.—Harrodsburg Ploughboy.

THE CHURCH CATASTROPHE.—The rubbish at the scene of the terrible calamity of Sunday, was entirely removed yesterday, but no bodies were found. There was a report current yesterday morning that a number were found in the ruins, and that a good many were still missing, which, of course, was incorrect.

To the number of wounded we have to add the names of Miss Eunice Lane, aged 16 years, and Mrs. Marshall, Miss Lane is dangerously injured in the head, but strong hopes are entertained of her recovery.

Mrs. Hewitt, and Miss Duff, who were injured, are doing well.

Mrs. Marcell, who was wounded, we regret to learn, died last evening. A Miss Marcell, was much better last evening.

The report that the Sexton of the Church was killed is incorrect.

Funeral of the Dead.

Yesterday afternoon, the funeral services of some six or eight of the victims of the dreadful accident which occurred at the Third Presbyterian church, were performed. The bodies were brought to the First Presbyterian church, on Green street, between Centre and Sixth, where from five to six thousand persons had assembled.

The opening services were conducted by Rev. Dr. W. L. Beckenridge, pastor of the First Presbyterian church—after which Rev. Mr. Morrison, the gentleman who officiated at the Walnut Street Church on Sunday last, made a brief statement of the terrible catastrophe. The effect of his description was heightened from the fact of his being an eye-witness of the distressing occurrences which he narrated. He was followed by Rev. Dr. Hill, who delivered a most impressive and appropriate discourse. Mr. Hill stated during his discourse as a fact worthy of remark, and one well calculated to afford consolation to the many friends and relatives of the deceased, that all, so far as he knew, with the exception of the children were professors of the christian religion. The services were concluded by Rev. Dr. Halsey, of the Chestnut Street Church.

The assemblage was very large, larger, perhaps, than ever congregated on a similar occasion in this city; so great indeed, that it was found necessary to conduct the service in the spacious yard surrounding the church.

The funeral procession, which was composed of about 80 carriages, containing the relatives and friends of the dead, proceeded up Green street to Cave Hill, where the bodies were interred. The bodies of Mrs. Vildabe, and her three children were placed in one grave.

SCALD OR SORE HEADS, AND OTHER Eruptions.

—A most remarkable cure by Holloway's Ointment and Pills.—Mrs. Jackson, of Milk-street, Boston, has two children, aged three and five years; both of them were afflicted from their birth with the most inveterate scald heads which great interference with their general health. The mother tried every remedy likely to benefit them, (what mother will not?) to no purpose. But a friend recommended Holloway's wonder working Pills and Ointment, offering to make Mrs. Jackson a present of \$10 worth of the medicines if they did not benefit the children; this too was tempting to refuse, the Pills and Ointment were obtained, and \$3 worth cured both. The mother repaid for the Pills and Ointment and has written most gratefully to Professor Holloway for the cure effected.

WEAK, NERVOUS, DEPRESSED IN SPIRITS, and a prey to innumerable mental as well as physical evils, the victim of dyspepsia is indeed an object of commiseration. Yet it is ensured for him to despair. We care not how low, weak, nervous and irritable he may be, the cordial properties of HOLLAND'S GERMAN BITTERS, prepared by Dr. C. M. Jackson, Philadelphia, are stronger than the many headed monster which is preparing upon his body and mind, and if he chooses to try them, we will insure a speedy cure.

CONSUMPTION AND SPITTING BLOOD.—See the certificate of Mr. Turner H. Ramsey, for many years proprietor of the Farmer's Hotel, Fredericksburg, Va., and late city Hotel Richmond Va.

Dr. John Minge, of the city of Richmond, though a regular physician, and of course opposed to what he called quack medicines, was obliged to say that its good effects in the case of Mr. Ramsey, were wonderfully indeed.

He had been given up by several physicians: had tried most of the quack medicines and was on the verge of despair, as well as the grave, when he tried Carter's Spanish Mixture.

We refer the public to his full and lengthy certificate around the bottle, stating his cure.

ROBERT PETER,

MAN KNOW YOURSELF!
An Invaluable Book for 25 Cents.
Every family should have a copy.

100,000 Copies sold in less than a year, and it is now being revised and improved, just issued.

Dr. Hunter's Medical Manual and Hygiene, a book for the afflicted, containing the latest and most reliable information on the treatment and cure of every form of disease, contracted by promiscuous sexual intercourse, or by the use of the "Fountain of Youth," or by any other means, written in a simple style, avoiding all medical technicalities, and everything that would offend the ear of decency, from an exclusively devoted to the cure of diseases of a delicate or private nature.

To which is added, receipts for the cure of the above diseases, and a treatment of the causes, symptoms and cure of the Fever and Ague.

Testimony of the Professor of Obstetrics in Penn. College, Philadelphia: "Dr. Hunter's Medical Manual is a book which no physician or student of medicine can afford to be without. It contains a full and complete outline of the origin, progress, treatment and cure of every form of disease, contracted by promiscuous sexual intercourse, or by the use of the 'Fountain of Youth,' or by any other means, written in a simple style, avoiding all medical technicalities, and everything that would offend the ear of decency, from an exclusively devoted to the cure of diseases of a delicate or private nature."

From J. Woodson, M.D., University of Pennsylvania, Philadelphia: "It gives me pleasure to add my testimony to the professional ability of the Author of the Medical Manual. Numerous cases of disease, of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered incurable. In the treatment of Seminal weakness, or disarrangement of the functions produced by sexual excess, or of less venery, I do not know of any more successful remedy than that which he has recommended. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victim of such indiscretions, to recommend him as one, in whose professional skill and integrity they may safely confide themselves."

ALFRED WOODWARD, M.D.

"This is, without exception, the most comprehensive and intelligent work published on the class of diseases of which it treats. Avoiding all technicalities, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it in the hands of his sons. This author has devoted many years to the study of these various complaints treated of, and with too little health to put, and too little presumption to impose, he is offered to the world at the merely nominal price of 25 cents, for a book, which, in twenty years, has been successful in curing thousands of the afflicted."

No teacher or parent should be without the knowledge imparted in this book. It is a book that will save the child of pain, mortification and sorrow to the youth under their charge. People's Advocate.

A Presbyterian clergyman in Ohio, in writing of "Hunter's Medical Manual," says: "I have seen thousands of the afflicted, who have been led into the habit of self-medication, and who have been ruined by it. I have seen them upon themselves and their posterity. The constitutions of thousands, who are raising families have been rendered weak and diseased by the use of such remedies. I have seen them, who have been led to the religion of Jesus Christ, on the present and coming generations. Intemperance, (or the use of intoxicating drinks,) though it has slain a countless number of thousands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and believe me, your co-worker in the good work you are so actively engaged in."

One copy, (securely enveloped,) will be forwarded free of postage to any part of the United States, on receipt of 25 cents, or by express (post paid) COBURN & CO., Publishers, Box 158, Philadelphia, Pa.

AYER'S PILLS
A NEW and singularly successful remedy for a host of ailments, such as Constipation, Indigestion, Jaundice, Dropsy, Rheumatism, Gout, Humors, Nervousness, Irritability, Inflammation, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few of the effects in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless and effectual Cathartic were more freely used. No person can feel well while a cative habit of body prevails; hence, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feversish symptoms, and Bilious derangements. They all tend to become or produce a cative habit of body, and a cative habit of body leads to the hearse all over the land. Hence a reliable family physician of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An anxious and judicious practice by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of imposture.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are:

PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

DOCT. A. H. HAYS, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

DR. L. MOORE, M.D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. SOUTHWICK, Esq., one of the first merchants in New York City.

C. A. DAVIS, M.D., Supt. and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give you a hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their daily use.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the common drugs, but of the most valuable and only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found to be the most successful, and the most efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of poisonous and injurious ingredients, by this method, the individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of such substances employed are left behind, the active virtues only being retained. Hence it is self-evident in cases where they are used, they proved more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expected that any medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of its remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pills and my Syrup are made, so that the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known. Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all eyes, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have respectively pronounced my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful action, directly on the system, and by their stimulating effect on the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and relieving whatever distress, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.
